

SPLITTER BOX

GENERAL INFORMATION

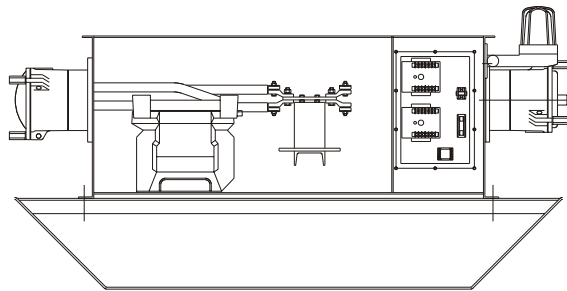

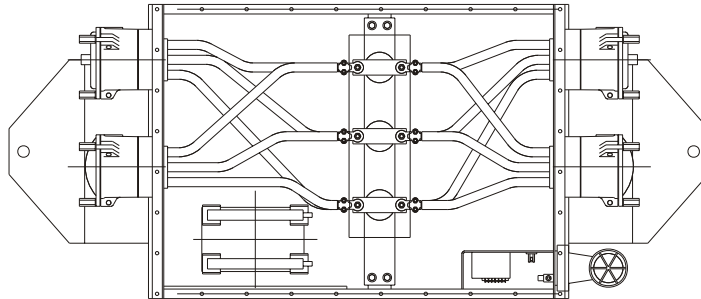

Splitter boxes are enclosures containing insulators, bus and terminating facilities to provide a convenient method of interconnecting two or more cables.

Patton & Cooke has been designing and manufacturing splitter boxes since 1961. Our experience combined with customers' specific needs result in a range of splitter boxes which will satisfy most applications.

Patton & Cooke splitter boxes are available in free standing, wall, skid or trailer mounted styles. They are available in voltages from 600 V through 25 kV with current ratings to 2,000 Amps.

We can custom design splitter boxes to meet customer's specific needs.

For pricing or technical information contact the Patton & Cooke agent or distributor in your area or Patton & Cooke directly.
