

DC COUPLER
1100 V - 1400 Amp

WE MAKE THE CONNECTION.

MARINE PORTABLE POWER CONNECTION FOR DC CHARGING VESSELS.

DC COUPLER RATINGS:

- 1100 Volt
- 1400 Amp
- 2 positive 2 negative and 1 neutral contacts
- 12 heavy duty communication and control contacts

FEATURES & BENEFITS:

- Designed to work with Igus e-chain™ flexible cable conduit and strain relief
- Quick flip bolt latching
- IP 67 sealing
- High strength marine grade aluminium body
- Silver plated copper contacts with internal contact bands for low insertion force when mating
- Marine grade powder coated finish (colour options available)
- Works with standard air cooled insulated cables, no liquid cooling required to maintain full current
- High strength insulators
- Solid copper contacts are easy to replace

OPTIONS:

- Fibre optic integration
- Ethernet integration
- Wired with single core cables
