## CABLE BUN

### CABLE SUSPENSION SYSTEM

Lightweight, easy handling, highly visible cable buns are proving to be the preferred choice in high voltage power cable suspension.

#### TABLE GUIDE

If the cable diameter in inches falls between two catalogue numbers use the larger of the two.  
eg: for 2.73" (69.34mm) outer cable diameter, use P&C Catalogue No CB-104.

#### FEATURES:

- Controlled radius helps prevent high voltage power cable damage and breakage.
- Carbide friction strip embedded into the inner radius of the body eliminates cable slip.
- Specially designed sling used in a 'choker hold' position clinches the power cable and hold it in place.
- Constructed from a hard wearing polyurethane, therefore impervious to harsh weather conditions.
- Cable buns are supplied with colour coded pennants sewn into the sling for easy visual identification.
